There's a New Blind Spot in Executive Due Diligence

**Traditional diligence shows you the resume.
It doesn't show you behavior.**

Leadership risk doesn't start in the boardroom. It shows up first online, in the news, and across public records.

Firms relying on references and background checks alone are missing critical signals that impact reputation, judgment, and leadership fit.

Close the gap with Fama 360

- ✔ Social media and news screening for early risk signals
- ✔ Sanctions and watchlist coverage for global compliance
- ✔ Civil litigation and international news analysis
- ✔ Investigator-led research for clear, policy-aligned insights
